

OFD EQUIPMENT FAMILIARIZATION & BREACHING DRILL –

On Nov 15, 2014, OFD initiated a breaching drill at a double-wide trailer in Oracle. They rotated groups to cover all four areas of training while deconstructing the donated training structure. Eleven OFD firefighters attended as well as Mammoth Fire Dept and a number of CERTs and Explorers to assist. Captain Paul went over PPE (e.g. eye protection, gloves, safety zones, CERTS/rehab area).
